NOTE EXPLICATIVE

This document concerns only the submitted sample; reproduction is authorized only in its complete form.
Tests and reports are carried out in accordance with our general terms and conditions of sale available upon request.
The declaration of conformity only takes into account the results of the parameters for which a specification or reference framework is stated.
To declare conformity or non-conformity with current regulations or specifications defined in technical requirements regarding physico-chemical analyses, the uncertainty associated with the result may be added or subtracted in order to obtain a result clearly compliant with specifications or current regulations, prioritizing customer risk.
Tests are identified by a 5-character code, the detailed description of which is available upon request.
Tests identified by the 2-letter code XK were carried out by the Eurofins Análisis Agro S.A. laboratory.
The laboratory is exempt from responsibility in the event of information provided by the client that may affect the validity of the results.
Where the laboratory is not responsible for the sampling stage, the results apply to the sample as received or handled.
